CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Bull Sale Planned Friday, January 8

The seventh annual bull sale sponsored by Florida Aberdeen-Angus Association will get under way at 12 noon Friday, January 8, at the Glades Livestock Market, Belle Glade.

Association members are offering 95 bulls this year—more than twice as many as sold at last year's sale and one of the biggest in association history.

All of the bulls are service-age and Florida-raised—therefore acclimated. According to Scott L. French of Loxahatchee, about 60 percent are over two years old, and all are at least 22 months old—ready for immediate service. French will again be sale manager for the association.

Auctioneer at the event will be Robert Cooper, of Sarasota.

Six contractors make up the roster—Gulfstream Farm at Fort Lauderdale will be offering 22 bulls, the largest number from any one contractor. Virgil B. Ranch of Lake City will have 22 animals to sell, M & M Ranch of Loxahatchee offers 17 bulls, and 16 head are in the offering of M. Clair Farms, Lake Worth. Knollwood Angus Ranch, Inc., Fort Myers, and S. Schipper, Miami, each offer 10 bulls.

Further information concerning the sale is available from George Young, manager of the Glades Livestock Market at Belle Glade, or from French, who is manager of M & M Ranch at Loxahatchee. Catalogs are also available from the same sources.

March Of Dimes Is Scheduled Jan. 2nd

The New March of Dimes campaign in Palm Beach County will begin January 2, it was announced this week by Kenneth Foster, county campaign chairman.

Foster also announced the opening of a county March of Dimes headquarters at 301 First Street in West Palm Beach, which will be under the supervision of Mrs. James Wade, Lake Worth.

Key campaign leaders already appointed by Foster include Mrs. Mary Shea, county Mothers' March; John Causey, teenage activity chairman; John Burns, West Palm Beach chairman and Bernard Grall, benefit chairman.

The county chairman said the 1960 campaign seeks to raise funds for a fight against birth defects, arthritis and polio, three major crippling that affect one in every four U. S. families. The drive will continue through January, reaching a climax January 28 with the traditional Mothers' March.

Would Take Grip Off Of Airfields

TALLAHASSEE—The Aviation Department of the Florida Development Commission is all in favor of the federal government taking flying restrictions off some of the state's thousands of acres of air space.

A recent proposal by the governor to revoke restrictions on the old Avon Park bombing range and an area near Port St. Joe received immediate Development Commission approval.

Most of Northwest Florida is restricted in one way or another to private planes and there are six such areas south of Jacksonville.

Rec Area Will Be Outstanding One

A meeting of the county, state and federal officials last week is expected to result in "one of the finest fresh water recreational areas in the state," county commission vice chairman Paul Rardin predicted this week.

The recreational area is located near 20 mile bend on a main canal of the Central and South Florida Flood Control system.

Commission Chairman Lake Lytal reported that a meeting last week between the State Road Dept., FCD, Florida Development Commission, Federal and State Wildlife organizations, county officials and State Rep. Ralph Blank, resulted in a plan whereby a new road, road side park and picnic facilities and boat ramp will be built on the canal in the near future.

In other actions this week the commission:

Approved the designation of Commissioner Lake Lytal as chairman of a committee to seek college extension courses for this area. The educational classes are desired at top priority by industrial firms interested in locating in the county.

Received a report that Avis and Hertz auto rental firms are using what was described as misleading advertising in seeking to rent cars to visitors arriving at International Airport.

Rardin Renamed To National Group

The Palm Beach County Commission has fared well in committee appointments in county official associations on both state and national levels.

Vice Chairman Paul Rardin, Canal Point, has drawn his fifth consecutive appointment as a member of the Roads and Highway Committee of the National Association of County Officials. Rardin was also named a member of a special committee on finance and taxation formed by the State Association of County Commissioners, a group which will serve in an advisory capacity to the state legislators.

Other appointments in the State Association include: Rardin as chairman of the resolutions committee; Commissioner Roy Michael, chairman of the zoning committee; Commissioner Kenneth Foster, chairman of the utilities committee and Chairman Lake Lytal, chairman of the health and welfare committee.

The Palm Beach County board drew four of the state association's 15 committee chairmanships.

Saloon Operators Shun The Airport

There were no bidders when the county commission this week called for bids on operation of a cocktail lounge at International Airport.

The proposed lounge has long been opposed by Commissioners Paul Rardin and Roy Michael.

When informed Monday there were no bids for the lounge, Rardin chided his colleagues on the board.

"You mean no one wants to operate a saloon at the airport—Glory Be!"

Motor vehicle license tags will be on sale at the County's Glades Office Building north of Belle Glade Monday morning, Jan. 4, according to Mrs. George Young, manager of the Glades branch office of Stetson O. Sprout, County tax collector.

This year's tags have yellow numbers and letters against a blue background except for dealer and F. O. tags which have blue numbers against a yellow background.

There is one new series in this year's assortment of tags, the "R" tags, which will be issued to scooters and motorcycles up to and including five break horsepower engines. This type of vehicle in the past has been using an "A" tag.

Glades residents who reserved license numbers for their cars during October and November may pick up their special license tags at the Glades Office Building, Mrs. Young said.

During the past year, from Jan. 5 to Dec. 28, a total of 9,531 motor vehicle license tags were issued at the Glades Office Building. New Addition To Pahokee City Hall

Plans for a new addition to the Pahokee City Hall, submitted by Elliott Cross, city engineer, were accepted by the City Council in regular session Monday night. The plans provide extra space for the police department and jail, the fire station and storage room for records on file at the city clerk's office. It is estimated the new addition will cost approximately \$75,000.

Property owner petitions for new sidewalks on North Elm Avenue and the west end of Avenue of the Veterans were approved and Streets Superintendent Marvin Cowart was authorized to proceed with plans for building the walks. Property owners living on the south end of Avenue of the Veterans requested that the name of their street be changed, first, because the term, "avenue," in this instance does not correspond to the city's system of designating streets and avenues, and second, because of its length. The Council instructed City Attorney Ralph O. (continued on page 8)

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The community of Palm Beach Shores this week, asked the County Commission to replace an eroded section of shoreline which the town claimed was caused by operation of a sand transfer plant at the Palm Beach Inlet.

The property where heavy seas had washed away a section of sand against an inlet jetty, is one quarter mile from the site of the sand transfer plant, according to County Engineer Steve Middleton and the damage is not the responsibility of the county board.

Middleton told the commission the property is owned by A. O. Edwards, who developed Palm Beach Shores. He said the erosion at the end of the Jetty seawall had been noted long before the sand transfer plant was built.

The letter from the Palm Beach Shores community stated the county had agreed to replace sand

washed away. Middleton said he had no knowledge of such an agreement.

The commission declined to approve the request and instructed the engineer to write the town officials pointing out there was no knowledge of the replacement agreement and in addition that the county is not in a position to replace eroded beach sand on private property.

The county commission this week changed the time and place of a public hearing on building a proposed jet airport near West Palm Beach.

The meeting, according to the change, will be held at 2 p. m. at the Mounts Building on Military Trail on Jan. 11.

The need for additional space to display charts and plans was given as reason for moving the hearing from the court house where it was originally scheduled to be held.

Today Bonds are better than ever. Every Bond bought since June 1, 1959, now pays 3½% at maturity. Even your older Bonds will earn an extra ½% from June 1 to maturity.

Chances are your banker encouraged you to buy your first Savings Bonds. The next time you visit your bank take time to thank him for his good advice, and buy an extra Bond while you are there.

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit: \$30,000.

Now even better! Invest more in Savings Bonds!

Paul Rardin became a member of the club on October 25, 1934. During that time he has been associated with The Everglades News at Canal Point where he is owner-publisher. He served two years as secretary-treasurer of the club and also as president.

Rep Cowart Hurt Seriously By Fan

Reppart Cowart, about 65, owner of Cowart laundry and dry cleaning plant, was scalped Wednesday afternoon when he accidentally fell head first into a window fan at his plant.

The attending physician reported that it took 100 stitches to re-stitch the scalp, which had been rolled up on the victim's forehead by the fan blades.

The physician reported that the only thing that saved Cowart from a possible worse fate was the fact that the victim was bald.

The accident reported to have occurred when Cowart attempted to look out the plant window to supervise workers outside. He apparently lost his balance and toppled into the blades or the window fan.

Cowart was taken to the Everglades Memorial Hospital in Pahokee.

**Make your dream house come true! It's easy
—through Payroll Savings!**

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U.S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest as current income, ask your bank about Series H Bonds, which pay dividends annually by Treasury check.

Choose your own savings goal

"The National Foundation, Foster said, 'has become the leader in a fight against crippling diseases. The foundation hopes to provide patient aid, as funds permit, to children under 19 crippled by arthritis and certain birth defects. Aid to polio victims will continue.'"

Also planned, Foster said, are a program of medical research to solve the problems of arthritis and birth defects and a vigorous program of education for the health professions, with health scholarships for high school graduates and college students playing an important role.

Foster, who is a Palm Beach County Commissioner, has long been associated with the county chapter of the polio foundation and has served as a director of the chapter for several years. He has previously served as county chairman of the March of Dimes and

also took an active part in a recent polio television show to raise funds to meet financial emergencies faced by the county chapter in care of polio patients still under treatment in this area.

Bids for the purchase of a new tractor-bulldozer for the streets department were opened at the meeting and that of the Glades Equipment Company (\$9,022.11) was accepted. Bids for the purchase of a new garbage collection truck chassis and packer body, also opened at the meeting, were tabled for study. Action will be taken on these five bids at a special meeting Wednesday night.

FAMILY REUNION

Mr. and Mrs. John E. Wilson, accompanied by her father, E. A. King of Norman, Ill., who has been their house guest, and by their sons-in-law and daughters, Mr. and Mrs. Milton Salvatore and Mr. and Mrs. F. E. Gillis and families, and Mrs. Richard Thierry, attended a family reunion and dinner at the home of Mrs. Wilson's brother and sister-in-law, Mr. and Mrs. A. J. King, at Port Lauderdale. Mr. King remained in Port Lauderdale for an extended visit with his son and family.

Child Adoption Calls For Study

JACKSONVILLE—In 1959 Florida newspapers contributed thousands of lines of news and editorial comment on one of the gravest social problems facing our great state—the problem of providing more protective adoption services for more than two thousand children placed in un-related adoptive homes in Florida each year.

In 1951 there were only 868 adoptions legalized by court petitions; in 1955 there were 1494; in 1958 there were 1860. Of these 868 adoptions, licensed agencies placed 280, 353, and 487 respectively. This indicates that only about one child in four placed in adoption in Florida has the benefit of the careful planning and proper selection of his permanent home.

The birth trends and population growth in Florida indicate that by 1965 there will be over 3000 children placed in adoptive homes in Florida each year; by 1970 the figure will be well over 4000.

With the national average of licensed agency placements being about 55 percent today, (a few states average over 90 percent) Florida's status in this critical social problem is not in keeping with the spirit of progress and planned community development that distinguishes our state among the entire fifty United States today.

The problem of bringing protective services to more homeless children is the focal point of action by Florida's largest and only statewide adoption agency—The Children's Home Society of Florida.

Since 1955, the Society has served just over 12 percent of all the children placed in unrelated adoptive homes in the state. To maintain this percentage of placements in the growing need for licensed agency services, by 1970 the Society will be placing well over 5000

children each year in permanent adoptive homes.

The Society is supported largely by the generous contributions of thousands of individuals, families, and organized groups throughout the state. It receives also allocations of money from twenty-four of the thirty-four Community Chest-United Fund organizations conducting annual campaigns in Florida in 1959.

Santa's Gift Is Said Dangerous

TAMPA—One of Santa's most popular "toys" this year is a potentially dangerous instrument, the Peninsula Motor Club has warned.

Marvin L. Holloway, president of the AAA affiliation, referred to the lawnmower-engine powered cars that are selling so well in retail stores. One child was killed in Miami when he drove his cart into a street and was struck by an automobile.

The carts reach speeds of 12 to 15 m. p. h., but are not allowed on streets, highways or sidewalks. Vacant lots are about the only places they can be legally operated.

Sure, she's a grand old flag!
That's why we salute her.
That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.
